CAREER OBJECTIVE

Entry-level Data Analyst with strong skills in data analysis, visualization, and problem-solving. Seeking to apply analytical techniques to collect, clean, analyze data, identify trends, and provide actionable insights that help improve business decisions, processes, and performance.

PROFESSIONAL SUMMARY

- PGDM (Business Analytics) student with a background in Computer Applications and hands-on internship experience in data analysis.
- Skilled in Excel, SQL, Power BI, and Python for data cleaning, analysis, and visualization.
- Experienced in identifying trends, patterns, and relationships in data to support business decision-making.
- Strong understanding of data quality, ethics, confidentiality, and documentation best practices.

TECHNICAL SKILLS

- Data Analysis & Visualization: Power BI, Tableau, Excel (PivotTables, VLOOKUP, Charts)
- Databases & Querying: SQL, MySQL
- Programming & Analysis: Python (Pandas, NumPy, Matplotlib, Scikit-learn)
- Data Preparation: Data cleaning, transformation, validation
- Tools: MS Excel, PowerPoint, Word

PROFESSIONAL EXPERIENCE

Data Analytics Intern – Enigma Holdings | 2025

Project: Stock Clustering by Behaviour

- Collected, cleaned, and prepared financial data for analysis using Python and Pandas.
- Identified trends and patterns in stock returns, volatility, and RSI indicators.
- Defined relationships between variables to segment Nifty 50 stocks using K-Means, DBSCAN, and Hierarchical Clustering.
- Created clear visualizations to present insights in an accessible format.
- Shared findings and recommendations to support data-driven investment decisions.
- Followed ethical data usage practices and maintained documentation of analysis steps.

PROJECTS

Hybrid Gift Shop Website | 2024

- Digitized a manual sales process using a database-driven web application.
- Structured and analyzed sales data to support basic business insights.

Movie Mania OTT Platform | 2023

- Developed a database-backed streaming platform with structured user data.
- Supported analysis of user preferences and content engagement.

EDUCATION

PGDM – Business Analytics (Pursuing) | Dr. D. Y. Patil B-School, Pune | 2026

BCA | Christ College, Pune | 2024 | **72%**

CERTIFICATIONS
